Tech Skilling Program

2024 Program Offerings
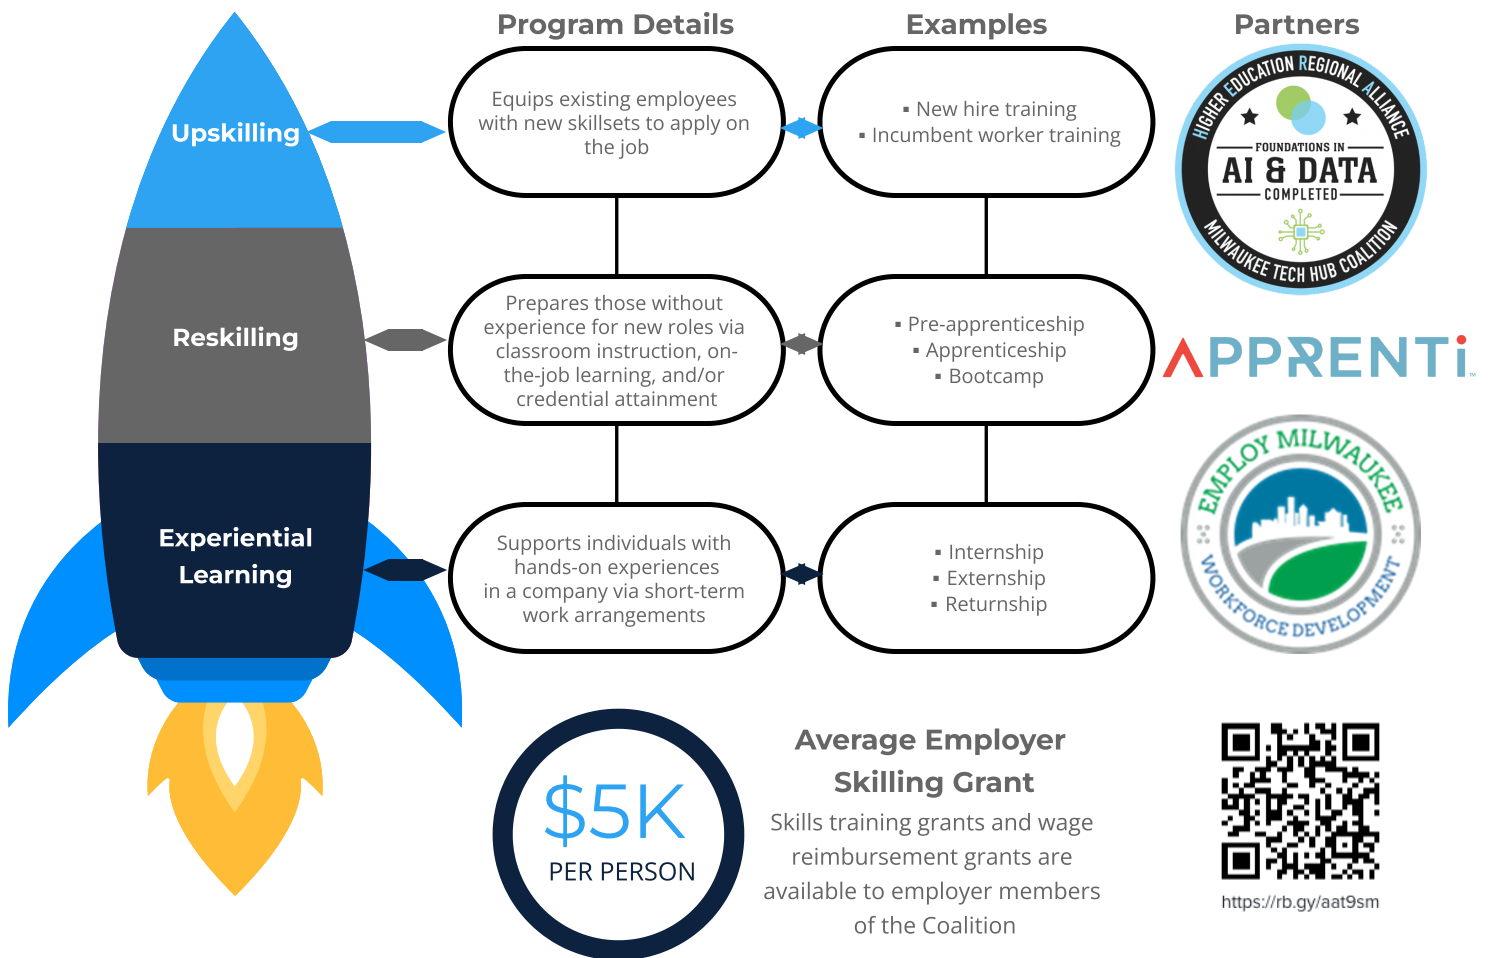

mke tech

About the Program

MKE Tech Hub Coalition's Tech Skilling Program provides solutions to qualify and retain diverse tech talent in Southeastern Wisconsin. Based on a market-responsive, employer-first design, the program reduces barriers and costs for employers to access, develop, and expand skilled talent capacity to meet business needs.

How it Works

The Tech Skilling Program offers tech talent development through a three-tiered approach to skilling.
Employer members of the Coalition are eligible to receive access to program support via experiential learning, reskilling, and upskilling.

	Program Details	Examples	Partners
Upskilling	Equips existing employees with new skillsets to apply on the job	▪ New hire training ▪ Incumbent worker training	HIGHER EDUCATION REGIONAL ALLIANCE — FOUNDATIONS IN AI & DATA COMPLETED — MILWAUKEE TECH HUB COALITION
Reskilling	Prepares those without experience for new roles via classroom instruction, on-the-job learning, and/or credential attainment	▪ Pre-apprenticeship ▪ Apprenticeship ▪ Bootcamp	APPRENTi
Experiential Learning	Supports individuals with hands-on experiences in a company via short-term work arrangements	▪ Internship ▪ Externship ▪ Returnship	EMPLOY MILWAUKEE WORKFORCE DEVELOPMENT

$5K
PER PERSON

Average Employer Skilling Grant

Skills training grants and wage reimbursement grants are available to employer members of the Coalition
